Re: Section 324 Management Costs Final (12-Month) Lock-ins and
HMGP Final Lock-in Ceiling, FEMA-4140-DR-VT

Dear Director Flynn:

Under Section 404 of the Stafford Act, as amended, 75% Federal funding is authorized for hazard mitigation measures. As a condition of receiving Federal disaster assistance, measures must be cost-effective, environmentally acceptable and be consistent with the strategies and recommendations identified in your State Hazard Mitigation Plan. Funding for mitigation projects under the HMGP is based on 15% of the estimated aggregate amount of grants made under the Stafford Act. The 12-month final lock-in of \$809,763 in Federal funding is available for the HMGP under FEMA-4140-DR-VT. A breakdown of funding is listed below:

5% PROJECTS	\$ 40,488
7% PROJECTS	\$ 56,683
REGULAR PROJECTS	\$ 712,592
12-MONTH LOCK-IN	\$ 809,763
STATE MANAGEMENT COST PROJECTS	\$ 39,597 (4.89%)

\$849,360 (handwritten note pointing to the 12-MONTH LOCK-IN line)

This calculation is based on the 12-month estimate as reported by the authorized disaster assistance programs. This is the final 12-month lock-in for FEMA-4140-DR-VT. Based on an approved extension request dated June 17, 2014, final applications or amendments for new mitigation projects must be submitted to the FEMA Region I Hazard Mitigation Assistance Branch by **October 1, 2014**. Please forward a SF-424 to cover the funding request. If you have any questions, please contact Richard Verville, FEMA Region I Hazard Mitigation Assistance Branch Chief, at (617) 956-7524.

Sincerely,

Dean J. Savramis
